DETAILED ACTION

Claims 1-14 are pending.

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- (a) the fungi recited in claims 1 and 6;
- (b) the insects recited in claim 11.

The species are independent or distinct because the fungi recited in claims 1 and 6 are drawn to species or strains with different characteristics and properties, and the insects recited in claim 11 have different characteristics and needs.

Applicant is required under 35 U.S.C. 121 to elect a **single** disclosed species of from each of (a) and (b) set forth above, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 10 is generic.

Thus, a properly responsive election would appear as follows: --

Applicant hereby elects, with traverse, *Beauveria bassiana* having the identifying characteristics of *Beauveria bassiana* NRRL 30593 as the fungus of species (a), and pecan weevils as the insect of species (b).

--.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 1651

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan E. Fernandez whose telephone number is (571) 272-3444. The examiner can normally be reached on Mon-Fri 8:30 am - 5:00 pm.
